<b>HOSE SIZE</b>	<b>3/4" - 1 " - 1 1/2 "</b>

\* PLEASE STATE CAPACITY WHEN ORDERING  
CONTINUOUS OUTPUT ADJUSTMENT  
AVAILABLE AS AN OPTION

**DELTA EV025 is a continuous mix injection – grouting / plastering machine. All you have to do is put the cement or ready mix plaster or grout bag on the bunker , adjust the preset water intake (lt/hr) according to the mix consistency you need and the specially designed bag breaker will split open the bag and the continuous mixer will take the preset amount of water and prepare a consistent mix and pump at the same time. You can use this simple to operate machine for ready mixed plasters , cement injection , mud jacking anchor grouting etc.**
